Testing of 800 MW Generator

In June 2011, in a historic achievement, L&T-MHI Turbine Generators (now L&T-MHPS Turbine Generators) engineered history in Hazira by assembling and successfully testing an 800 MW generator for the 2x800 MW SDSTPS (Sri Damodaram Sanheevaiah Thermal Power Station) coming up at Krishnapatnam, Andhra Pradesh - a never before achievement in India.
