L&T Power bags British Safety Council's 'Sword of Honour'

Rajpura project, Dhuvaran project and L&T MHI Turbine Generators (now L&T-MHPS Turbine Generators) factory got the Sword of Honour which is one of the most coveted awards in health and safety field worldwide. This award scheme of British Safety Council recognises the 'best of the best' in health and safety management.

The British Safety Council is a government-regulated body that works with businesses to improve their health, safety and environmental management. Complete EPC Engineering of Rajpura and Dhuvaran Projects is being carried by L&T-Sargent & Lundy.
